EXPERIENCE

Cisco Systems

Bangalore, Karnataka

Consulting Engineer Trainee

Apr 2026 – Present

- Automating enterprise migration workflows by developing Python-driven AI tools to streamline network infrastructure transitions.

Kodryx AI

Hyderabad, Telangana

AI Engineer Intern

Oct 2025 – Feb 2026

- Developed an AI-driven document forensics system processing diverse document types to detect manipulation, forgery, and hidden data.
- Engineered **5 forensic modules** (signature verification, steganography, pixel level analysis, metadata, and OCR) using computer vision techniques.
- Validated forensic detection modules against **152 steganography samples** and **20+ document test cases**, maintaining high-precision accuracy across forgery and hidden-data scenarios
- Built end-to-end pipelines integrating streaming data, vector search, and automated fraud detection workflows.

PROJECTS

VAYU: Self-Adaptive Deep Learning for Air Quality Forecasting | [Github](#)

March 2025 – Present

- Accomplished **93%** prediction accuracy ($R^2: 0.93$) for real-time hyper-local AQI forecasting by architecting a **custom TKAN (Temporal Kolmogorov-Arnold Network)** deep learning architecture optimized with a **Lion optimizer** to slash model training velocity to 14.2 seconds.
- Tech stack:** Arduino (ESP32), Python (FastAPI), TypeScript (Next.js), TKAN, TensorFlow/JAX, Hugging Face Spaces, Firebase.

Serverless Log Analysis & AI-Assisted Incident Detection System | [Github](#)

Aug 2025 – Sept 2025

- Automated **natural language root cause analysis** and log triage across 4+ production-ready endpoints by engineering a serverless **FastAPI & LangGraph** agentic pipeline integrating a profile-driven **PII redactor**, background **Kafka consumer**, and a dual **Delta Lake / ChromaDB** storage engine packaged via multi-stage Docker builds.
- Tech stack:** Python, FastAPI, LangGraph, Gemini API, Kafka, Delta Lake, ChromaDB, Docker, GitHub Actions.

TECHNICAL SKILLS

Cloud & Infrastructure: Google Cloud Platform (Cloud Run, Cloud Storage, BigQuery), Docker, Firebase

Networking: TCP/IP, Routing & Switching, VLAN, 802.1Q, DHCP, DNS, Linux Systems Administration.

Languages & Databases: Python, SQL (MySQL, Postgres)

Developer Tools: Git/Github, Docker, Jupyter Notebooks/Colab, Firebase Studio, UiPath studio and Orchestrator.

Frameworks & Libraries: TensorFlow, Keras, FastAPI, PySpark, LangChain, Crew.ai, PyTorch, scikit-learn

EDUCATION

Jawaharlal Nehru Technological University

Hyderabad, TG

Bachelor of Technology in Computer Science and Engineering (AI&ML)

October 2021 – July 2025

ADDITIONAL & CERTIFICATIONS

- Competitive Achievements:** [TCS Codevita Global Ranking 378](#); Ranked *947/2706* in **Automated Essay Scoring Competition** on Kaggle.
- Cloud & AI Credentials:** [Oracle Cloud Infrastructure 2025 Generative AI Professional](#); [Oracle Cloud Infrastructure 2025 AI Foundations Associate](#); [Google Cloud Skill Boost Badges](#).
- Networking Certifications:** [CCNA \(Cisco Certified Network Associate\)](#).
- Technical Coursework:** [Machine Learning by Stanford University & DeepLearning.AI](#); [AI/ML for GeoData Analysis](#).
- National Cadet Corps:** Awarded **NCC 'B' Certificate with Grade 'A'** after training in drill, weapons, map reading, and Field Craft (**Lance Corporal** rank).
